PRO Grade FERTILIZER

Manderley PRO Grade line of fertilizers are designed to provide lawns with the right blend of nutrients for healthy growth throughout the growing season.

Nutrient management is critical to the long-term health and vitality of any lawn. From the time you install a new lawn, onwards, your lawn's nutritional requirements are always changing. Even normally healthy soils can develop deficiencies over time, which natural processes are unable to replenish in a short timeframe.

Manderley's complete line of PRO Grade Fertilizers are designed to take this into account, providing you with the right solution for your lawn, when you need it. Blended with the environment in mind, Manderley PRO Grade line of fertilizers combine expert analysis with leading edge technology to yield best results, no matter the season. Rest easy, with added insurance for your property.

PROFESSIONAL QUALITY SEED

LESS WATER GRASS SEED

Manderley Less Water line of products offer sustainable solutions for any landscape in the form of premium quality seed blends that require up to 50% less irrigation.

All Manderley Less Water products are qualified drought tolerant by the Turfgrass Water Conservation Alliance (TWCA), a non-profit organization committed to water conservation. With the help of the TWCA, Manderley released the first drought tolerant qualified line of sod and seed products in Canada.

LESS WATER FULL SUN/HIGH TRAFFIC

LESS WATER LOW MAINTENANCE

Description	<p>This durable, cold hardy blend of TWCA qualified cultivars is designed to perform in full sun and high traffic areas.</p> <p>Requires 50% less irrigation and resists drought up to a month and a half longer than an average lawn mix.</p> <p>Use this blend to overseed your Manderley Less Water sod.</p>	<p>Excellent for low traffic full-sun and partial shade areas, and will result in a thick, vibrant, and beautiful lawn.</p> <p>Its high concentration of drought-tolerant fine fescue means that it grows slower and lasts longer in shadier areas than Kentucky Bluegrass. This seed mix can help to reduce time spent watering and mowing.</p>
Composition	70% Kentucky Bluegrass, 30% Perennial Ryegrass.	60% Fine Fescue, 20% Kentucky Bluegrass, 20% Perennial Ryegrass.
Formats	1 kg, 4.5 kg, 11.4 kg, 22.7 kg	1 kg, 22.7 kg
Coverage	1 kg x 1,900 ft ² (176 m ²)	1 kg x 965 ft ² (89 m ²)
Light Rqmts	Full sun to partial shade	At least 4 hours of sunlight/day

PRO Grade GRASS SEED

Manderley PRO Grade line of seed products use only the highest quality seed, no filler, for superior results, always.
